

## SpaQuip Spa Heaters

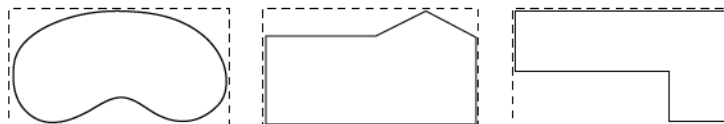

Code	Model	Product Description
2660	4.5kW Classic Spa Heater	
2661	6.0kW Classic Spa Heater	

## PoolTherm Solar Heating

9408	Solar absorber (per mtr)
9459	Manifold(each)
9422	Adhesive
9460	Digital controller
9461	Break valve

### MEASURING YOUR POOL

PoolTherm Pool Blankets are supplied as a rectangular sheet and therefore need to cover the entire pool including steps. To calculate the size of the pool blanket required, measure the longest length and the widest width of the pool. These dimensions will then be increased by 100mm to allow for shrinkage over time.
